TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. If any of above boxes 1. to 4. are checked, the correction required is only the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121.

Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action.

Failure to timely respond to this notice will result in:

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

Continuation of 1(c) Other:

The following amendments to the specification cause the amendment document to be non-compliant:

(1) In the amendments to the specification beginning on page 3, line 1 (page 2 of 14 of Applicants' 8/11/09 response), Applicants make the following change to the specification without the appropriate markings to indicate such:
"T551" is changed to "T55I"

(2) In the amendments to the specification beginning on page 3, line 30 (page 3 of 14 of Applicants' 8/11/09 response), Applicants make the following change to the specification without the appropriate markings to indicate such:
"T551" is changed to "T55I"

(3) In the amendments to the specification beginning on page 15, line 25 (page 4 of 14 of Applicants' 8/11/09 response), Applicants indicate that the term HuAIF13 has been deleted and that the term HuAIF12 has been added at page 15, line 30. However, in the specification as originally filed, page 15, line 30 has the original term HuAIF12 not HuAIF13.

Furthermore, Applicants response does not contain any response (amendments or arguments) to the following objections to the specification that are set forth beginning at page 3 of the 2/17/09 Office Action:

"(1) An updated priority statement of the instant application's parent provisional and nonprovisional applications should be included in the first sentence of the specification or application data sheet. Specifically, this information should indicate that the instant application is a 371 of PCT/US04/37600, filed 11/10/2004, which claims benefit of provisional application 60/527,882, filed on 12/4/2003."

"(6) The disclosure is objected to because it contains an embedded hyperlink (browser-executable code). See page 9, line 16. Applicants are required to delete the embedded hyperlink. See MPEP § 608.01 (part VII)."

"(7) The sentence on page 34, lines 4-7 contains two typographical errors: (1) an extraneous parenthesis on line 5 ("...sequences) of the...") and (2) a missing space on line 6 ("... aredepicted ...")."

To be fully responsive to the previous Office Action, Applicants must respond to the above objections.
